

Malicious File Detection System

Security Analysis Report

Scan Information

Report ID	RPT-000012
Scan ID	12
Scan Date	2026-08-22T15:10:38.805640
Application	Malicious File Detection System

Risk Assessment

Risk Score	55/100
Risk Level	SUSPICIOUS

File Information

Filename	invoice.doc
File Type	text/plain
MIME Type	text/plain
Extension	.doc
File Size	56.0 B

Cryptographic Hashes

MD5	ca74254d3d367a508b140dd662984b54
SHA-256	eeFee78dedb400424575f17ab555a186c5c806f36f445ddebcba0bb383e95055

Detected Indicators

#	Indicator	Severity	Points
1	Extension Mismatch	WARNING	+30
2	Suspicious Filename	WARNING	+10
3	Content Patterns	WARNING	+15

Score Breakdown

Suspicious characteristics detected. This file exhibits patterns commonly associated with potentially unwanted software. Manual review recommended.

Risk Score: 55/100 (SUSPICIOUS)

Triggered Rules:

- [WARNING] Extension Mismatch: Extension '.doc' expects MIME 'application/msword', but detected 'text/plain'; Detected type 'text' does not match extension '.doc'
- [WARNING] Suspicious Filename: Suspicious filename characteristics: Filename contains 'invoice'
- [WARNING] Content Patterns: Content patterns found: Contains pattern: eval(

Security Recommendation

SUSPICIOUS: Exercise caution. Verify the file source and scan with a trusted antivirus solution before use.

Disclaimer: This report is generated by automated static analysis. It does not guarantee the file is safe or malicious. Always use multiple security tools and manual review for critical decisions.
